

# GEMSEAL RAVEN

TREATMENT FOR ABSOLUTE  
BLACK GRANITE AND SIMILAR

## TECHNICAL DATA SHEET

### PRODUCT DESCRIPTION

The product penetrates easily without forming a film on the surface and resists over time even outdoors while maintaining good stability to UV rays.

GemSeal Raven is black in color specially developed to enhance the Absolute Black surface from imperfections such as white flakes and black spots.

It can also be used on other black stones where you want to intensify the color.

### APPLICATION

It is recommended to apply the product with a brush or roller to allow better penetration and spreading of the product.

Depending on the finish, the product can be applied with a smooth, brushed or glossy finish.

### DEADLINE

24 months if stored in a cool and dry place (10-25 °C / 41-77 °F) in its original and closed packaging.

It is recommended to use open containers as quickly as possible.

### HEALTH & SAFETY

Read the safety data sheet before handling or using this product.

### IMPORTANT NOTICE

The above information is based on the latest stage of development and application technology. Due to a variety of different influencing factors, this information, as well as other oral or written technical advice, should be regarded as non-binding suggestions.

In any particular case, the user is obliged to conduct performance tests, including but not limited to traces of the product, in an inconspicuous area or manufacture of a sample piece.
